01 — COMPANY PROFILE

About Us

A healthcare-focused portfolio built around clear information and professional partnerships.

OUR COMPANY

Health Plus Innovation Pvt. Ltd. is a healthcare-focused company whose portfolio spans pharmaceutical formulations, nutraceuticals, probiotic products and selected hospital-oriented products. This catalogue brings the available products together in one organised reference for professional review.

HEALTHCARE FOCUS

The supplied portfolio includes nutritional support, digestive health, allergy and respiratory care, anti-infectives, probiotics, and injectable preparations. Product details in this catalogue are transcribed from the package artwork provided.

WHO WE SERVE

Doctors, hospitals, healthcare institutions, distributors, stockists, retailers, pharmacies and other business partners — supported through a clear and organised presentation of the available range.

PORTFOLIO AREAS

Nutraceuticals & Supplements

Probiotic

Digestive & GI

Allergy & Respiratory

Anti-Infective

Injectable & Hospital

Other Prescription

OUR APPROACH

Present product information clearly. Respect the labelling and guidance associated with each product. Build professional relationships through responsible communication, transparency and a willingness to improve.

02 – COMPANY PROFILE

Vision, Mission & Values

The principles that guide the way we present our portfolio and work with healthcare partners.

OUR VISION

To contribute to a healthier tomorrow by building trusted relationships and supporting access to relevant healthcare products.

OUR MISSION

To maintain a well-organised product portfolio, communicate product information clearly, engage responsibly with healthcare partners and pursue continuous improvement in service and collaboration.

Our Core Values

Six practical principles for clear communication and productive partnerships.

01 Quality

Careful attention to clear, consistent product information and presentation.

02 Integrity

Communicate accurately and avoid claims that go beyond verified information.

03 Innovation

Stay open to better ways of presenting products and serving partners.

04 Responsibility

Respect product labelling, applicable requirements and professional guidance.

05 Collaboration

Build constructive relationships with healthcare and distribution partners.

06 Customer Commitment

Respond with care, clarity and professional communication.

Clear information. Responsible partnerships. Better-informed conversations.

03 – COMPANY PROFILE

Why Health Plus Innovation?

A practical, partner-oriented approach to presenting healthcare products.

01 Organised portfolio

Products are grouped by therapy area to make browsing and reference easier across healthcare segments.

02 Clear product information

Names, formulations, strengths and pack sizes are presented from the supplied package materials.

03 Professional partnerships

Designed to support communication with doctors, hospitals, pharmacies and distribution partners.

04 Responsible presentation

Details stay close to package information; unclear or unavailable details are not filled with assumptions.

OUR PROMISE

Trust is built through the details.

We aim to earn confidence through responsible communication, transparency, product-information discipline and constructive relationships. Our shared goal is to support better-informed healthcare conversations and long-term professional partnerships.

The image displays the packaging for Ecoblast-M, an anti-allergic and anti-histaminic medication. The main box is white with blue and orange accents. It features the Health Plus Innovation PVT. LTD. logo at the top left, followed by the product name 'Ecoblast-M' in large, bold, blue letters. Below the name, it says 'ANTI-ALLERGIC / ANTI-HISTAMINIC'. A circular badge on the right side of the box states 'FAST ALLERGY RELIEF'. Below this, there are four icons representing common allergy symptoms: Sneezing (orange), Runny Nose (blue), Itching (green), and Watery Eyes (purple). The box also indicates it contains '10x10 Tablets'. In front of the box is a blister pack containing ten white, oval-shaped film-coated tablets. The background of the image is a light blue gradient with molecular structures.
